BlewMinds is a Russell Group Founder driven organization working in the niche space of Inner Transformation & Sustainable Change through unconventional frameworks of StoryTelling, experience sharing & people analytics. Our clients are in various industries, diverse geographies & markets. Our strengths are our authenticity, deep customer-centricity & the value we bring to all conversations.

We are in the process of launching an AI-based Career Enhancement & Professional Profile Enhancement Product. We are currently approaching the culmination of Beta Phase of this product & it is expected to be launched soon. This would be the start of a new technological spectrum at BlewMinds.

General details

1. This is currently a virtual role which will **work closely with the Founders**. We are work-from-home till pandemic tides over.
2. It is a **full time/not part-time role**.
3. **As Step 2** for shortlisted candidates, we would be **deploying 1-2 interview/virtual assessment rounds** with our Line Managers &/or Founders.

Role: Full Stack Developer/Analyst/Jr. Analyst/Intern - Technology Consulting

Job Specifications & Expectations

1. Freshers or those with 1 year of relevant experience/internships are welcome.
2. Role will revolve around both front-end & back-end development of websites, applications & innovation.
3. This role expects candidates to have a strong hold on domain-specific technical skills as well as work ethics, good communication skills, high level of ownership & drive to learn.
4. Expertise in front-end technologies like - HTML, Javascript, CSS, Bootstrap & other CSS frameworks like AJAX.
5. Expertise in back-end technologies like - Python, PHP, MySQL/ MongoDB.
6. **Role focuses heavily on** the ability to learn on the job, identify solutions & new ways to optimize existing processes & develop innovative solutions/products to take our services to the market.
7. Good at research - evaluating tech strategies, latest trends, unconventional methodologies & automation opportunities, quantitative & analytical research abilities.
8. Effective oral & written communication skills (including excellent interpersonal skills) with the ability to gather & analyze information skillfully.
