## **Workshop on Capacity Building of Law Graduates prior to their enrolments as Advocates**

- The Governing Council of the National Judicial Academic Council by way of a resolution passed in 2019 had resolved that State Judicial Academies will engage in capacity building of law graduates prior to their enrolment as Advocates.
- Accordingly, with an object to acquaint the participants with the essential skills required for advocacy, the role of an advocate in realising the Constitutional Vision of Justice, and attuning them with concepts of empowerment, legal ethics and use of technology in legal practice, the programme has been meticulously designed by the Delhi Judicial Academy as capacity building initiative for final year law students and law graduates who are yet to be enrolled.
- This programme focuses on enhancing participants' legal acumen, critical thinking and their vision of a legal career, thereby facilitating their successful transition from a student of the law to practitioner/stakeholder in the justice delivery system. The Training Programme is designed as a two-day programme, split across 6 sessions, to be conducted at the Delhi Judicial Academy on the 11<sup>th</sup> and 12<sup>th</sup> September 2024.
