Click for Registration

About Turnitin:

Established in 1998 by four students from the University of California-Berkeley, Turnitin is dedicated to fostering integrity, consistency, and equity in all facets of education and academic research. Our mission is to uphold the integrity of global education while significantly enhancing learning outcomes.

As global leaders in Plagiarism Detection Tools and Grading and Assessment, Turnitin offers a wide range of products trusted by individuals, educational institutions, and professional organizations. With a portfolio of over seven major products, Turnitin is the trusted choice for a multitude of academic, professional, research, and government entities. *Everyday, Turnitin process over 1,00,000 papers worldwide.*

Session Agenda:

1. What is Plagiarism?
2. Understanding the difference between Plagiarism and Text Similarity.
3. Different types of Plagiarism.
4. Understanding how to Interpret Reports and review process.
5. How does AI Writing Detection work?
6. How to create Class & Assignment?
7. How to upload Papers? (New Work-Flow)
8. How to use various settings and features.
9. Understanding the Paper Deletion process.
10. Exploring other features and settings.
11. Helpful resources.

We invite all University School of Studies (USSs) to get benefited from this session.
